HOLIDAYS

Your ornaments are history

Every year, it's the same thing.

You dress me up like this, then wonder why I knock over the tree.

QUESTIONS THAT HAUNT ME!

Why do you have to “put your two cents in”...
but it’s only a “penny for your thoughts”?
Where’s that extra penny going to?

Once you’re in heaven, do you get stuck wearing the clothes
you were buried in for eternity?

Why does a round pizza come in a square box?

What disease did cured ham actually have?

How is it that we put man on the moon before we figured out
it would be a good idea to put wheels on luggage?

Why is it that people say they “slept like a baby”
when babies wake up like every two hours?

If a deaf person has to go to court,
is it still called a hearing?

Why are you IN a movie, but you’re ON TV?

Why do people pay to go up tall buildings and
then put money in binoculars
to look at things on the ground?

Why do doctors leave the room while you change?
They’re going to see you naked anyway.

Why do toasters always have a setting that
burns the toast to a horrible crisp,
which no decent human being would eat?

If Jimmy cracks corn and no one cares,
why is there a stupid song about him?

If the professor on Gilligan’s Island
can make a radio out of a coconut,
why can’t he fix a hole in a boat?

Why does Goofy stand erect while Pluto remains on all fours?
They’re both dogs!

If Wile E. Coyote had enough money to buy all that
ACME crap, why didn’t he just buy dinner?

If corn oil is made from corn, and
vegetable oil is made from vegetables,
what is baby oil made from?

If electricity comes from electrons,
does morality come from morons?

Do the Alphabet song and
Twinkle, Twinkle Little Star
have the same tune?

Why did you just try singing the two songs above?

Did you ever notice that when you
blow in a dog’s face, he gets mad at you,
but when you take him for a car ride,
he sticks his head out the window?

Why do we press harder on a remote control
when we know the batteries are getting dead?

Why do banks charge a fee on “insufficient funds” when they
know there is not enough money?

Why does someone believe you when you say
there are four billion stars,
but check when you say the paint is wet?

Why do they use sterilized needles
for death by lethal injection?

Why doesn’t Tarzan have a beard?

Why does Superman stop bullets with his chest,
but ducks when you throw a revolver at him?

Why do Kamikaze pilots wear helmets?

Whose idea was it to put an “S” in the word “lisp”?

If people evolved from apes,
why are there still apes?

Why is it that no matter what color
bubble bath you use
the bubbles are always white?

Is there ever a day that mattresses are not on sale?

Why do people constantly return to the refrigerator with
hopes that something new to eat will have materialized?

Why do people keep running over a string a dozen times with
their vacuum cleaner, then reach down, pick it up, examine it,
then put it down to give the vacuum one more chance?

Why is it that no plastic bag will open from the end on your
first try?

How do those dead bugs get into those enclosed light fixtures?

When we are in the supermarket and
someone rams our ankle with a shopping cart then apologizes
for doing so, why do we say, “It’s all right?”

Well, it isn’t all right, so why don’t we say,
“That really hurt, why don’t you watch where you’re going?”

Why is it that whenever you attempt to catch something
that’s falling off the table
you always manage to knock something else over?

In winter why do we try to keep the house as warm as it was
in summer when we complained about the heat?

How come you never hear father-in-law jokes?

And my FAVORITE...
The statistics on sanity are that one out of every four persons
is suffering from some sort of mental illness.
Think of your three best friends –
if they’re okay, then it’s you.
